# Black Sea Basin

- Specific hydro-meteorological picture
- Economic and trade culture
- Experience and trends that need to be explored and take into account in the Education & Training of maritime personnel
- An outflow of the maritime personnel from highly developed countries and establishment of labour market supplier in the East European countries
- Black Sea Association of Maritime institution (BSAMI)

## Vasco da Gama for the Black Sea

### *Black Sea Basin ENI CBC 2014-2020*

- Improving mobility and access to employment for students and people working in maritime careers in the Black Sea to reduce youth unemployment and brain drain
- Facilitating transnational mobility in the field of maritime education in the Black Sea Basin
- Proposing practical steps and arrangements which should be implemented in a further step
- Building a true “Black Sea Community” of maritime training and education to increase the environmental performance, the competitiveness, and the attractiveness of the sector

- Thematic options:

- safe and sustainable maritime transport respecting the marine and river environment, via upgrading education levels in these fields
- Identification of the requirements for seafarers regarding more ecological and safer maritime transport in the Black Sea Basin
- Specialised training seminars for yachts and small cruise vessels crew
- Maritime Safety and Security (Management of Dangerous Cargoes could be an activity of this WP)
- Sustainable coastal and maritime tourism
- Standardisation of skippers' qualifications across the Black Sea

## Sustainability and links with other projects

- European Commission's maritime strategy for the Black Sea
- CPMR project proposal for a Black Sea Local & Regional Authorities Forum
