

**Work Package 1 Core Group meeting**  
**“Training for Maritime Safety”**  
Brussels, 26<sup>th</sup> March 2014 (morning)

**AGENDA**

(21/03/14)

**“Master Programme in Sustainable Shipping”**

**1 - Intro by PK, WP1 expert: goal of WP1, objective of the meeting**

The goal of WP 1 is to develop and implement a test version of a master program in sustainable shipping on postgraduate level.

**2 - Presentation of participants**

**3 - Overall presentation of Vasco da Gama project by CPMR**

**4 - Overarching organisation of the test version. Discussion towards a consensus**

Introduction by **Pär Karlsson**, Kalmar Maritime Academy, Linnaeus University

- Where will it be held?
- Shall the test version be held in more than one place?
- How shall we market the programme?
- Which academy will obtain Ects-credits, be responsible for student registration, student inquiries, the course certificates?
- Is it possible to give certificates for a programme or only for the modules?
- In what way can stakeholders contribute to the programme?

- Debate

- Conclusions

**5. Curriculum and teaching competences**

Introduction by **Pär Karlsson**, Kalmar Maritime Academy, Linnaeus University: KMA takes responsibility for curriculum and teaching competences for two modules (Leadership and Human Element) of 7,5 credits each.

- What is the most important content for the remaining modules – perhaps Safety Culture and Economy?
- Who will take responsibility for teaching competences and content of remaining modules?

- Debate

- Conclusions and next steps
