Vasco da Gama

WP2 :

Training and maritime simulators

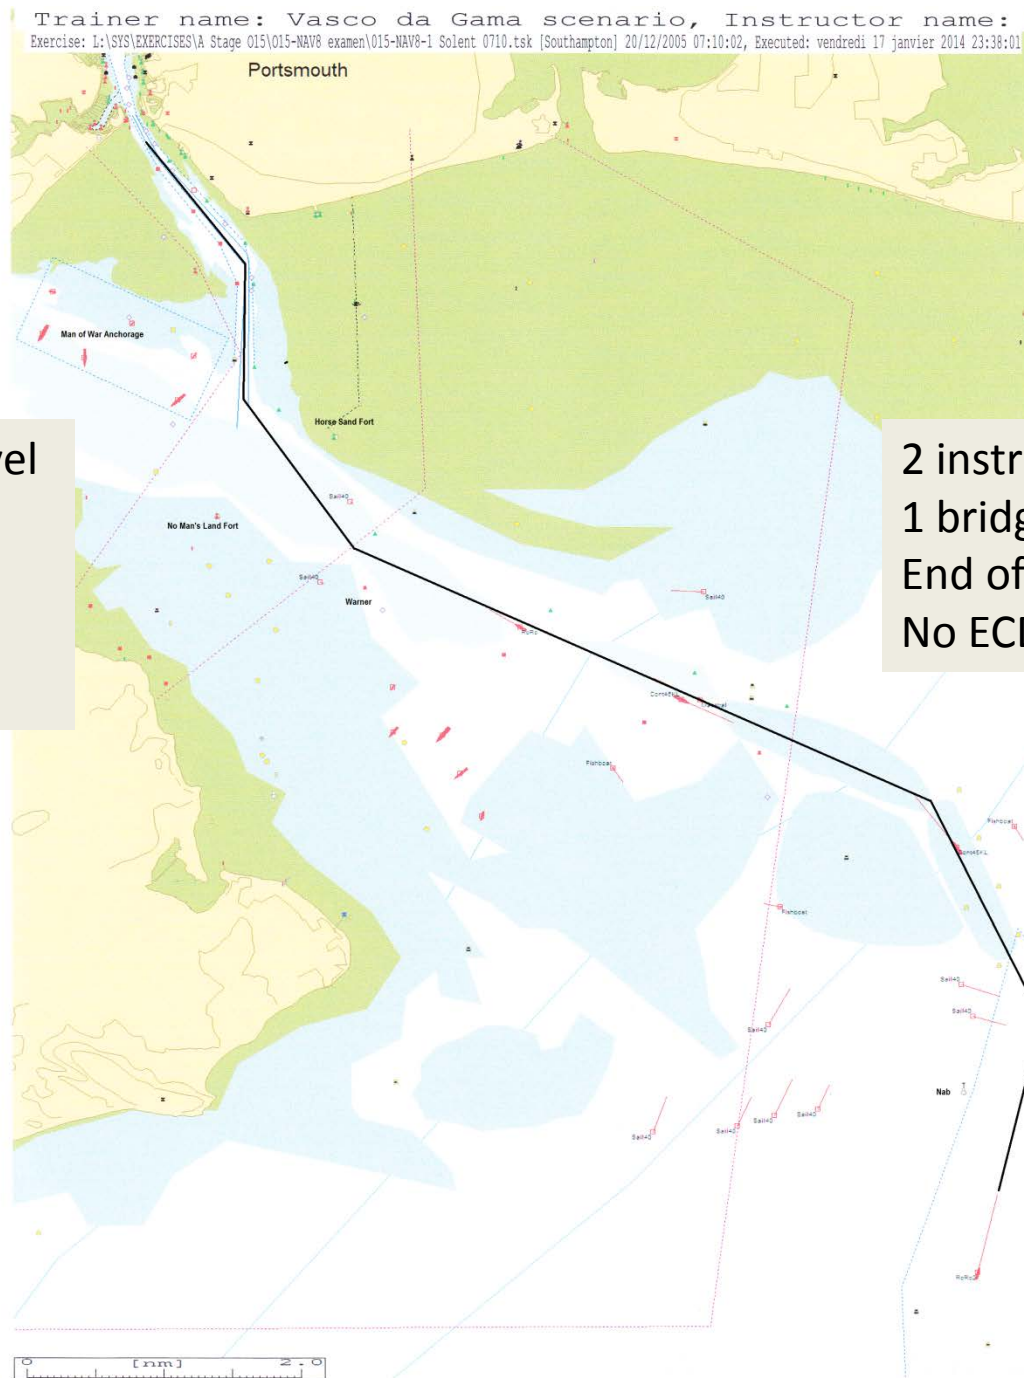

First experimental pilot session

Objectives

- Define relevant topics to be illustrated in simulation
- Define limits of simulation
- Define instructors' skills

Management level

- 1 captain
- 1 officer
- 1 helmsman
- 1 observer

2 instructors

1 bridge

End of session scenario

No ECDIS, no AIS

Methodology and evaluation process

- 3 volunteers to play the exercise : 1 hour
- Other professors as observers of the unfolding of the scenario
- Debate about the scenario
- Debate about general questions on simulation

Scenario : Engine-room

Schedule

Today

- 1130-1230: Split into 2 working groups
Familiarize with the simulation tool
Passage planning for the exercise
- 1400-1530: Play the scenario, debate on the scenario
- 1600-1740: Debate about general questions on simulation
- 1740-1900: Drive to the new school building site
- Evening: Diner in town

Thursday

- 0900-0945: Evaluation of the bridge working group
- 0945-1030: Evaluation of the engine-room working group
- 1100-1300: Building a scenario combining bridge and engine-room simulators
- 1300-1315: Conclusions and next steps
